TABLE XVI.

CASTES, TRIBES, AND RACES BY TRADITIONAL OCCUPATION, OR NATIONALITY.

The Provincial Total is classified by traditional occupation or nationality, but the Divisional and District figures are arranged alphabetically, the classification being noted in the first column. The details in the latter groups of statistics under Baniya, Bhuimali, Kochh, etc, printed in a different type, are included in the caste totals above them.

TABLE C.

EDUCATION BY CASTE-DIVISIONAL AND DISTRICT DETAILS.

In every District there are several castes with only a very few educated representatives. These persons are mostly immigrants into the district, and their details would uselessly lengthen the table. They have, therefore, been grouped under the single heading of Minor Castes. The Provincial total, however, gives the full details. The latter portion of the table also shows the number of illiterates, in each caste, but this information, which can easily be obtained by subtraction from Table XVI, has been omitted in the District figures.
